MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economic Overview :

A robust banking and financial sector is critical for activating the economy and facilitating higher economic growth. Financial Intermediaries like NBFCs have a definite and very important role in the financial sector. Particularly in a developing economy like ours. Indian's economy is diverse, encompassing agriculture, handicrafts, textile, manufacturing and a multitude of services. The advent of the digital age has gradually transformed India as an important "back office destination" for global outsourcing of customer service and technical support.

Industry Structure and Development – Overview :

NBFC's play a vital role in the context of Indian economy. They are indispensable part in the Indian financial system because they supplement the activities of banks in terms of deposit mobilization and lending. They supplement the role of the banking sector in meeting the increasing financial needs of the corporate sector, delivering the credit to the unorganized sector and to the small local borrowers. NBFC's has flexible structure than banks. Their flexible structure helps in broadening the market by providing the saver and investor a bundle of services on competitive basis.

With virtually all finance company business lines coming under greater competitive pressure, defining strategic initiatives and backing each with the necessary resources has become imperative for success. On the consumer side of the business, the ability to compete in various product offerings often is dictated by operational efficiencies and economies of scale. In this respect NBFC's face problems of high cost of funds because they lack the nation wide branch network and have a comparatively lower Tier-I and Tier- II capital base.

We witness that NBFC sector, in India are facing stiff competition from different banks and financial institutions. The cost of funds of banks is lower as compared to NBFC. Not only this, they have a very wide network and huge capital base which makes them more attractive than NBFC. However as the market is volatile in nature, the long term growth of capital market calls for a matter of concern.

Opportunities, threats, risks and concerns :

Your Company has operations in finance and equity investments. The independent finance industry issues debt and lends the proceeds to individuals (consumer finance companies) and corporations (commercial finance companies) on both a secured and unsecured basis. Unlike the commercial banks, whose deposit taking ability adds significantly to funding availability, finance companies rely almost exclusively on institutional borrowings and access to the public debt markets for funding. Consequently, the ability to access the short, medium and long-term markets at competitive rates is critical to their ongoing viability. Your company faces tough competition from Nationalized, Foreign and Private Sector Banks due to their ability to grant loan at a considerably low rate of interest.

Your Company is exposed to external and internal risks associated with the business. It is exposed to strong competitive pressures and financial risks from changes in interest rate, economic cycles etc.

There is a major threat coming from Banks. Banks have reduced the rate of interest, this has reduced the spread, thereby reducing the margin. The volatile nature of market also poses another threat. Your Company also faces stiff competition from Nationalised, Foreign and Private Sector Banks as they provide loans at a very low rate of interest.

The company has its own specific risks that are particular to its business including default risk, fluctuation of interest rates, economic cycles etc. Moreover existing banks are moving into retail sector and regional

banks like Assamese banks are coming into play, which poses major concern for your company. The volatility in the market is a matter of concern. However economic parameters being strong will upsurge the economy. Your company has a well defined and prudent business practice and a comprehensive Risk Management Policy to manage this risk.

Notwithstanding their diversity, NBFCs are characterized by their ability to provide niche financial services in the Indian economy. Because of their relative organizational flexibility leading to a better response mechanism, they are often able to provide tailor made services relatively faster than banks and financial institutions, which are capable of enhancing the functional efficiency of the financial system, instances of unsustainability, often on account of high rates of interest on their deposits and periodic bankruptcies, underscore the need for reinforcing their financial viability. Your Company sees opportunities in the market with existing and new customers. Your Company has dedicated accounts team to focus on each customer. Rising input costs and volatility in material, energy are some of the key challenges that your company is addressing by specific initiatives for each.

Future Outlook :

Your Company intends to invest in businesses related to infrastructure, telecommunication, soft ware etc. and wide variety of products and services. in the coming years since it sees good prospect in these areas. It would definitely try to establish itself and remain as a strong player in the finance industry. With the Capital market expected to be in a better mode than the previous few years and with our efforts we can look forward to a prosperous year for the company.

Internal Control Systems and their adequacy :

The Company has in place adequate internal control systems and procedures commensurate with the size and nature of its business. These procedures are designed to ensure :

- ★ That all assets and resources are used efficiently and are adequately protected;
- ★ That all internal policies and statutory guidelines are complied within letter & spirit;

The Company recognizes the importance and contribution of its Human resources for its growth and development and is committed to the development of its people.

Annexure B to the Independent Auditor's Report

Referred to in paragraph 2(f) of our Report of even date on the financial statements of the Blue Chip India Limited for the year ended 31st March, 2016.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Blue Chip India Limited** ("the Company"), as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India"(ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material Misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Adverse Opinion

According to the information and explanation given to us and based on our audit, the following material weaknesses has been identified in the operating effectiveness of the Company's Internal Financial Control Over Financial Reporting as at March 31, 2016 :

- i. The Company's Internal Control System for updating fixed assets records and physical verification thereof were not operating effectively which could potential result in material misstatement of the company's fixed assets balances.
- ii. The Company's Internal Control System for reconciliation of income tax dues were not operating effectively, which could potentially result in material misstatement of Company's tax payable/receivable account balances.

A 'material weakness' is a deficiency , or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, the company has, in all material respects, maintained adequate internal financial Controls over financial reporting as of March 31, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India, and because of the possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company's internal financial control over financial reporting were not operating effectively as of March 31, 2016.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2016 financial statement of the company, and these material weaknesses do not affect our opinion on the financial statements of the company.
